

By the time we reach age 50 our skin produces 10 times less oil than when we were 25.

Lack of oil and depleted moisture lead to dehydration and wrinkling of the skin.

Smooth Fusion Organics™ Testimonials

"Just a note to let you know the Burnicure along with the Nutricare Plus Pure Emu Oil I used for a serious burn on my hand worked unbelievable. The results are incredible. No scarring at all, even though I had a serious burn from hot oil that I spilled on the top of my hand. I have passed your information onto another cook who was interested. Always look forward to using more of your products."

-Elana Cabot, Chef, RI

"After four months my accident left a terribly large dark scar. A friend told me about Nutricare Plus skincare products that he had been using for several years. So, I started using the pure emu oil as a base and then I applied burnicure and then skin regeneration cream on my scar on my leg at the same time. The pure emu oil, antioxidant serum and skin regeneration cream I used on my face.

I watched daily as right before my very eyes the scar started fading each and every day. My skin started growing back. I can't believe burnicure, pure emu oil and the skin regeneration cream worked so well in just four weeks even as I am writing these words.

I love all your skincare products and use them every day on my face, arms, hands and the scar on my leg. I am thankful for the complete rescue to my damaged skin that your products have given me. I don't have to live with a large terrible scar the rest of my life and I know I'm looking and feeling younger every day."

Storage & Directions

Keep out of direct sunlight, at near room temperature under 24 degrees C or 75 degrees F. Keep what you do not use on a daily basis refrigerated. Do not freeze. For most applications gently massage an ample amount onto the desired area until cream is absorbed into skin.
* We suggest using Pure Emu Oil as a base, an excellent transdermal carrier that brings the cream's ingredients through the derma layer of skin.

Facial Application Directions

Instantly as you apply cream to your forehead skin it will tighten and then relax. Massage gently onto your lower cheek using a circular motion until loosen. Massage cream gently to other parts of the face until absorbed. The thinnest skin (< than a millimeter) on the body is found around and under the eyes. This means that a light touch and proper care are necessary for this delicate area to look and feel beautiful. Take some loosen cream from the lower cheek. Pat with your ring finger near the eye exerting the least amount of pressure so to avoid pulling the skin under the eyes.
